

April 21, 2020 Update

Hello Healers,

As we focus on your health, safety, and learning, here is your campus update:

What's New:

1. If you are coming to Campus please note that facemask are now required of all who enter the building. You may wear your own into the building or will be given one at screening. Please see the attached document for the latest updates.
2. We are continually working with the medical center and public health officials to determine when courses might be able to return to face-to-face meetings over the summer and into fall. We will communicate any new information as soon as possible. For now, please refer to the registration guide for the format of your courses.

Reminders:
